

# HUNGRY FOR BETTER HEALTH™: ACCESS TO FOOD IMPROVES HEALTH OUTCOMES

**18 MILLION** seniors live in poverty

The average senior on Medicaid lives on less than **\$9,000 per year**. Food insecure seniors are:

**60%** MORE LIKELY TO BE **DEPRESSED**

**53%** MORE LIKELY TO EXPERIENCE **HEART ATTACKS**

**43%** MORE LIKELY TO HAVE **CONGESTIVE HEART FAILURE**

**4 of 5** doctors believe unmet social needs lead to poor health

SNAP infuses an average of **\$108** into the homes of over **4.8 million seniors** each month

**BUT TOO FEW SENIORS ARE ENROLLED**

**3 out of 5** seniors qualify for SNAP but do not participate

**Seniors who enroll in SNAP have improved health and reduced costs**

**14%**

LESS LIKELY TO BE ADMITTED TO THE HOSPITAL

**\$28,360**

Average cost per hospital admission

**23%**

LESS LIKELY TO BE ADMITTED INTO A NURSING HOME

**\$25,091**

Average cost per nursing home admission

Every senior enrolled in SNAP saves **\$2,120** in healthcare costs every year

AN ESTIMATED **5.2 MILLION** SENIORS ARE ELIGIBLE, BUT NOT ENROLLED IN SNAP

Enrollment would save **\$10.8 billion** in healthcare costs annually

## THE SOLUTION:

Use data to enroll every low-income senior on Medicaid into SNAP

IMPROVED ACCESS

BETTER HEALTHCARE

LOWER COST

Work with us on a solution in your area.
